

Your Time Beauty is not your average salon. We are working towards being the small change in the world that the environment and community need. We are working towards supporting and stocking local beauty and wellness products that give back.

**So, what are we currently doing at a salon to move towards this impact?**

We raise awareness for a different charity each month and want to work towards raising \$3000 annually. We also intensely evaluate each product company we stock to make sure they align with our ethos. We are also a sustainable salon.

**Here are the charities/organisations and social enterprises you are supporting, just by visiting our salon and buying from us!**

**Sustainable Salons**

Sustainable Salons is the first comprehensive resource recovery program designed for the salon environment that rewards salons and gives back to the community.

Plastic packaging collected from the salon is sent to specialist local plastics recyclers where it's cleaned and made into outdoor furniture, landscape supplies and new product packaging, keeping it in circulation and out of our oceans!

Cardboard, paper, magazines, unwanted tools and select disposables are sold for recycling, and the proceeds are donated to **OzHarvest** to provide meals for hungry people.

In partnership with **Endeavour Foundation (QLD) and Mambourin (VIC)**, Sustainable Salons is creating stronger futures for people with a disability by providing purposeful work within our material collection and processing streams. Supported Employees sort and process the materials for repurposing!

### **P4O sunscreen**

Coral reefs around the world need our help. In the past 50 years, global warming, overfishing and land use have killed over 50% of reefs worldwide, compromising marine biodiversity and millions of human livelihoods. Today, sunscreen pollution is part of the problem. For this reason, for every product of P4O purchased, they will donate to reef conservation initiatives worldwide.

### **Woohoo body and Koh cleaning products**

#### 1% of the planet-

The intent of 1% for the Planet is to help fund these diverse environmental organizations so that collectively they can be a more powerful source in solving the world's problems. They connect their members with high-impact non-profit partners that align with their values.

### **Nutraorganics**

Project Give back is Nutragorganics ongoing commitment to helping the environment and community, where its needed most. They support Clean Ocean Foundation, CNCF, and OzHarvest. To date, the have helped clean 100KM of shorelines, planted 2000 trees, and help provide 30,000 meals.

### **BambuFace**

With every purchase made from bambuface, one tree is planted. They do this through 'Plant trees with Ecologi'.

### **Gaia Wellness and Empowerment Essentials**

\$1 from every sale will be donated to the following organisations:

#### ***Sister Works***

Sister Works are a non-for-profit social enterprise based in Melbourne. They support women who are refugees, asylum seekers or migrants. They do this by helping them build confidence, help with mental well-being, and a sense of belonging. Their vision is to help these women become economically empowered.

They provide opportunities to develop pathways of education, employment, entrepreneurship, and leadership. Sister Works also provide learning opportunities such as design and business. They hold a space where these women can meet, share knowledge and grow together.

For more information, please visit [www.sisterworks.org.au](http://www.sisterworks.org.au)

#### ***Gunawirra prevention through intervention***

Gunawirra was formed in 2008. Aboriginal representatives and elders pooled their ideas with professionals from psychiatry, psychology, social work and psychoanalytic therapy on how to address inequality among Aboriginal and Torres Strait Islander children, their families and communities.

The group identified the need for an early intervention, multi-disciplinary approach that empowered Aboriginal and Torres Strait Islander children, families and communities to intervene in their own lives. Gunawirra focused on supporting child development in the first five years of life.

The Gunawirra multidisciplinary team primarily works in two parts. One being their Young Aboriginal Mothers Group and the other working closely with 26 preschool communities to provide speech therapy, art therapy, occupational therapy and social work services.

For more information, please visit [www.gunawirra.org.au](http://www.gunawirra.org.au)

### **JS Health Vitamins**

Giving back to the community and environment is at the core values of JS Health vitamins. They have donated their vitamins to health care workers at various Sydney hospitals, donated funds to the Red Cross and Wires during the Australian bushfires, and they have funded the building of a classroom and medical clinic in a remote village of Kenya. They also support the charity, Share the Dignity.

JS Health are also committed to sustainability and the environment. All bottles are recyclable, FSC-certified and sustainable vegetable inks are used in their products. They also support the Friends of the Sea mission.
